### Editorial:

The things that I will comment on in this editorial I hope will serve millions of medical colleagues from different specialties to remove that veil from their eyes and plugs in their ears that they have, as the sacred scriptures say: a blind man cannot guide another blind man. It is difficult to begin with this editorial but the truth is that I will begin by saying that there are many aspects of our training as doctors that at the dawn of time and over the years that we have accumulated experience not only in our career but in life we realize that many dogmas of what they made us believe are not true, that is why I will say that the current medicine of our days has a before and after and I am specifically referring to this pandemic called Covid-19. We know the few doctors who have our eyes wide open and do not allow ourselves to be easily manipulated by the sinister psychopathic minds that are behind this entire global panholocaust. We know that the so-called Covid 19 was produced in China (Wuhan) by a pangolin and bat virus, with the SARSCOV-2 virus being responsible for this disease. In trying to find positive things within this macabre plan, the most notable thing I have found is first the great turbidity that exists not only in the pharmaceutical industry but also in so-called serious and scientific magazines of world prestige, where they have and continue blatantly lying to millions of naive, blind and of medicines that serves to make the greedy and cretin owners of that industry that only destroys human beings fatter every day. Have I always asked deaf, expert forums where they have used their name to continue with the lie of this pandemic that has only brought the desired effects on human beings, which by the way are devastating. Unfortunately, in my opinion, the doctor has always been a seller myself a question? The doctor was not trained in medical schools as a researcher but as a seller of what they want.

let's sell What cardiologist, endocrinologist, internist, etc. has verified under the microscope or by electrophoresis whether what we are administering to our patients is really beneficial or, on the contrary, we are producing other worse effects that generate other new diseases, let me explain better: we have the scenario of a newly debuted diabetic patient we begin to give them those poisons called oral antidiabetics and over time this patient appears to be hypertensive and the hypothyroid situation is even more dramatic. We already have a triangle called: Diabetes Mellitus, High Blood Pressure and Hypothyroidism, why does this happen? Returning to the topic that interests us, the so-called covid-19 helped the few doctors who have their eyes wide open to also realize the corruption in the main "health" agencies. And if that were not enough, this poorly called disease because in reality what they produced was a biological weapon of mass destruction using nanotechnology and not a virus called SARSCOV2, which only in the mind of a naive person could believe it, in reality that biological weapon created is called (eugenic depopulation lethal injection biological weapon for experimental use). It was

never cultivated, purified or isolated (there are no photographs anywhere) it was a product of the imagination that the international press made millions of human beings believe. But the most important thing about this is that behind this great curtain is the useless and not only This is the most terrorist organization on planet Earth THE WORLD HEALTH ORGANIZATION, along with its largest complicates UNITED NATIONS ORGANIZATION, which far from ensuring the health of human beings, looks after the interest of its main financiers, such as the new gurus for not say psychopathic minds Bill Gates, George Soros, Anthony Fauci, Mylo Canderian etc. How did this sinister planning begin? If we remember 2 years before this pandemic, those criminal organizations began a frenetic worldwide campaign on the influenza vaccine, this was the preamble for the preparation of a group of the population worldwide, especially people over 60 years of age ( Although many young people were inoculated with that influenza vaccine) in my laboratory I analyzed a vial of the influenza vaccine under an optical microscope at 40x and found the presence of “GRAPHENE OXIDE” which has more than 28 toxic actions within our body, especially at the brain level, cardiovascular system, liver, bone marrow, adrenal, lungs, gonads, etc. In the Wuhan laboratory, a biological weapon of lethal injection for eugenic depopulation for experimental use was developed and what they did is that they spread that weapon biological through the sky with planes loaded with that biological weapon in all the countries of the world and upon coming into contact with people already inoculated with the influenza vaccine, it produced an exacerbated immunological reaction and thousands of people ended up intubated in the care unit. intensive with a mortality of 100%, all patients died. It was a genocidal justification to begin the largest experiment on humans ever seen in all of history, the WHO declares a pandemic and the unjustified use of the so-called Vaccine because what it really is is an Experimental Gene Therapy whose first phase ends in September 2022. and ends in December 2023. They invented a disease called “COVID-19 produced by SARS-COV2. On multiple occasions I asked world-renowned scientific journals, through social networks and other electronic media, where the virus that produces COVID-19 is cultivated, isolated and purified, without obtaining any answer, rather they blocked me in almost all of them. social networks. There he showed me the great corruption of the highly prestigious American universities, as well as Medical Journals and not to mention the pharmaceutical industry that, together with the complicity of the aforementioned, become genocidal. Hence, the massive use in the population of the so-called vaccines whose main component is graphene oxide was never justified. As a General cardiologist, Interventional cardiologist with 6 subspecialties, the last being cardio-oncology, I have seen that as they inoculate the population under the greatest manipulation in every sense with 1,2,3,4,5,6 doses, the effects At the cardiac level they have increased by 1000%: fulminant myocarditis, sudden deaths, myocardial infarctions with a high content of thrombi that look like plastic, dilated cardiomyopathies that, by the way, in a scientific research article I discovered a type of dilated cardiomyopathy called dilated cardiomyopathy due to the toxic effect of graphene oxide or called H chinchilla syndrome, massive pulmonary embolism in the population, severe tachycardias in young patients who in the supine position present extreme bradycardias (25 beats per minute) and in standing extreme tachycardias (250 beats per

minute). minute). Increase in brain problems by 1000% and cancer of all types, especially lung cancer, lymphomas, leukemias, liver cancer, stomach cancer, melanomas, etc. by 1000%. I have performed peripheral blood smears on the blood of those inoculated and 100% of them independently from the second dose onwards, analyzed under a light microscope at 100x, I have found deformed and amalgamated red blood cells with the presence of graphene oxide ; Furthermore, 100% of the laboratory tests have been altered, especially blood counts with leukopenia, lymphopenia, neutropenia and eosinopenia (the most common). DimerD elevated up to 500% of its normal value NTproBNP whose normal value is up to 300, I have values in 25% of that population 37,000, elevated CRP, VES: elevated, which is why from the beginning of this editorial I mentioned that there is a before and a Afterwards (new diseases caused by inoculation) those people inoculated that contain graphene oxide, which by the way represent 63% of the world population, present serious effects on their health such as dyspnea on minimal effort, tachycardia, oppressive chest pain and Every day they go to their doctor and 99% of the time they can't solve the problem because they are treating it before. I encourage the global medical community to read this editorial and encourage them that the rules of the game have already changed and we are facing new diseases that do not work with traditional medicine. I invite all doctors worldwide to stop this genocide that still continues with different nuances.

#### In summary:

there is enough evidence that people were inoculated with graphene oxide and they deceived people by inventing more stories about the variants and what really were side effects at different levels and with different manifestations in those inoculated. Soon I will write about the deleterious effects that graphene oxide is causing on the electrical conduction system, producing advanced heart blocks and in patients with pacemakers it produces a graphene-right ventricular muscle interface that prevents proper functioning of the pacemaker. To conclude, we must put a stop to this genocide planned by psychotic minds in the world.
